

DESCRIPTION

Intelligent black tea fermentation equipment is mainly used for the fermentation of black tea. It has an advanced intelligent control box, which can intelligently adjust the temperature and humidity inside the machine, and the fermentation time can be controlled. It is essential equipment for producing a high quality of black tea!!

The inside of the machine is made of full stainless steel to ensure that black tea is not polluted during the production process. With the advanced intelligent atomization system, it can ensure that each layer of tea can be fermented uniformly, and the quality of each batch of tea is the same. Production can be accurately copied in batches!

①	Control Pannel	⑤	Atomization Water Tank
②	Machine Body	⑥	Door
③	Hangle	⑦	Hinge
④	Ferment Trays	⑧	Wheels

ADVANTAGE

1. The inner tank and trays are designed with stainless steel, which is clean and hygienic.
2. The door is lined with high-temperature resistant elastic rubber strips, which can seal the door of the machine to prevent hot air and water mist from escaping.
3. The high-frequency ultrasonic atomizer can atomize the water into very small droplets, which can enter the tea and improve the uniformity of fermentation.
4. The water tank with atomizer is installed on the top, and the atomized water mist naturally fills the inside of the tea fermentation machine, and the fermentation is more uniform.

APPLICATION

[Electric Tea Fermentation Processing Machine](#) is suitable for processing black / green / oolong / white / dark / herbal tea, the following is the working time required for the above tea production.

Type Of Tea	Working Time
Black Tea	2-6 Hours
Dark Tea	12-24 Hours
Herbal Tea	2-6 Hours

The above data is for reference only, and the specific processing time shall be determined according to the actual situation.

SPECIFICATION

[Electric Tea Fermentation Processing Machine](#) specification list:

Model		DL-6CFJ-120QB
Size		1870×1100×2040 mm
Voltage		220/50 V/Hz
Heating mode		Heating wire
Heating power		6.0 KW
Heating group		1 Group
Fan motor	Power	85 W
	Speed	2200 rpm
	Voltage	220 V

Tray size	720×520×100 mm
Tray quantity	32 pcs
Tray layers	2×8
Efficiency	350 kg/time

Specification of all of [Electric Tea Fermentation Processing Machine](#).

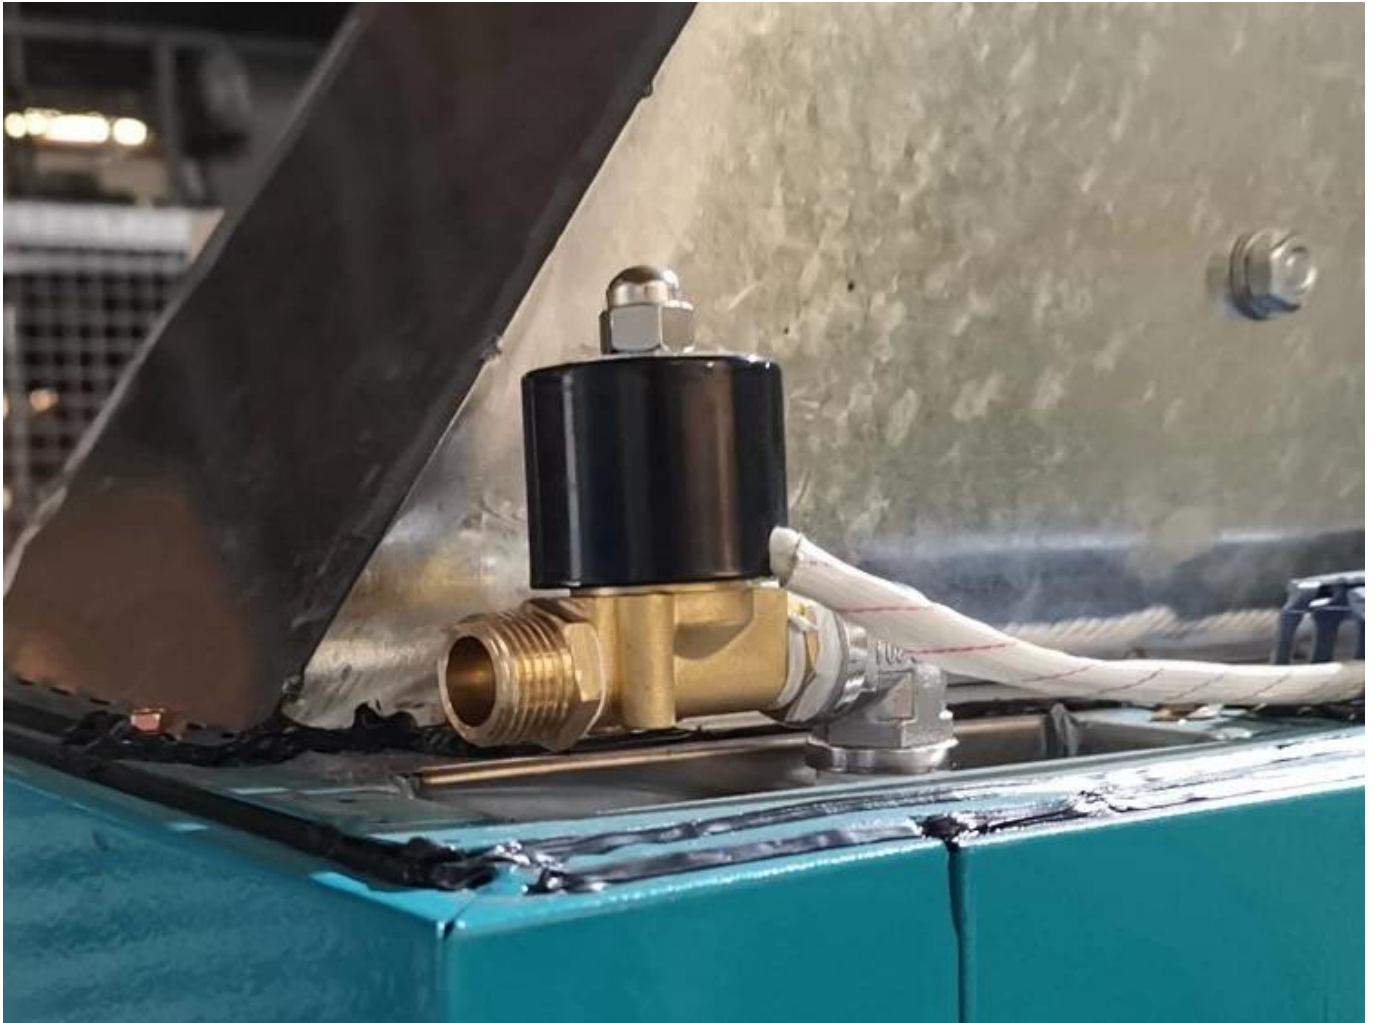

Model	6CFJ-20	6CFJ-60	6CFJ-80	6CFJ-120
Tray Quantity	5pcs	16pcs	32pcs	32pcs
Voltage	220V	220V	220V	380V
Power	3 kw	6 kw	6 kw	9 kw
Capacity	60 kg	150 kg	250 kg	350 kg

If you have special need, it can be customized according to the needs of customers.

DETAILS

Integrated microcomputer control system, temperature and humidity can be intelligently controlled.

The solenoid valve design ensures that the water in the tank is kept at the best atomization height.

Using high-strength steel hinges and door handles, the service life of the machine is increased by 40% compared with other companies.

The door is lined with high-temperature resistant elastic rubber strips, which can seal the door of the machine to prevent hot air and water mist from escaping.

Tea Fermentation Machine DL-6CFJ-120QB

Voltage : 220V / 380V

Power : 9 kw

Tray Layer : 8 Layers

Tray Number : 32 pcs

For Black/Dark Tea

350 kg per batch

All Stainless Steel

Tray Size : 72*52*10 cm

L:187cm W:110cm H:204cm
